

Cyber attackers are working 24x7 to compromise your systems. When you are targeted, will you survive an attack?

GUARDIAN 365 MANAGED SECURITY SERVICES

Guardian 365 is an always-on cybersecurity managed service offering end-to-end monitoring, detection, and remediation of attacks on your hybrid infrastructure, data, users, and endpoints. Leverage the security expertise of award-winning Microsoft Gold Partner, Forsyte I.T. Solutions, to keep your organization secure.

Protect. Detect. Respond.

Protection is #1. In the event of an attack, what are your odds of total remediation?

Guardian 365's unique approach to managed security services starts with architecting a zero-trust security model, deploying the right Microsoft 365 security solutions, and monitoring the security of your organization with the Guardian 365 tool.

Cybercriminals will attack the weakest link and you need visibility across platforms and tools to defend threats with end-to-end security management. Get 360-degree visibility and peace of mind control with customized dashboards and charts for your IT security operations.

Cybercrime damage is projected to reach \$10.5 trillion annually by 2025.

Gain control over your security operations.
